Key Framework Summary

This sheet summarises the core Strategic Focus Framework framework and provides practical tools for immediate application.

The Core Principle

Strategic Focus Framework is not a one-time event or a personality trait — it is a dynamic, developable leadership capability that is built through deliberate practice, structured reflection, and continuous learning.

The Strategic Focus Framework Development Model

Stage	What It Involves
Awareness	Understanding your current Strategic Focus Framework capability honestly — strengths, gaps, and the impact on your leadership.
Assessment	Using the BurnBright diagnostic to generate an evidence-based baseline score across all relevant dimensions.
Development	Building capability through deliberate practice, AI coaching, structured reflection, and peer learning.
Accountability	Using the Action Plan, Reflection Journal, and manager conversations to maintain consistent progress.
Integration	Embedding Strategic Focus Framework practices into your daily leadership routine until they become automatic.
Mastery	Modelling Strategic Focus Framework for others, mentoring, and building it as a team and organisational capability.

Quick-Reference Tools

Daily Habit Checklist

- + Complete a 5-minute Strategic Focus Framework reflection (use your Reflection Journal)
- + Use one AI prompt from your Prompt Pack
- + Notice one moment where Strategic Focus Framework influenced your leadership decisions
- + Acknowledge one area where Strategic Focus Framework needs deliberate attention today

Weekly Review Questions

- . Where did Strategic Focus Framework show up most strongly in my leadership this week?
- . Where did I fall short of my own Strategic Focus Framework standard?
- . What will I do differently next week?
- . Am I on track with my Action Plan commitments?
